

The Indian's Panacea.
It is the cure of Rheumatism, Scrofula or King's Evil, Gout, Sores or Hives, Gout, Scrofula, Salt Rheum, Syphilis, and all other diseases, particularly Ulcers and painful eruptions of the skin. Ulcerated Throat and Nose; Ulcers of every description, Fever Sores, and Internal Abscesses. Fistulas, Piles, Scalds, Head, Scurvy, Bites, Chronic Sore Eyes, Erysipelas, Blisters, and every variety of Cutaneous Affection. Chronic Catarrhs, Headach, proceeding from an acid humor, Pain in the Stomach and Dyspepsia, proceeding from vitiation; Affections of the Liver, Chronic Inflammation of the Kidneys, and general debility, caused by a torpid action of the vessels of the skin. It is singularly efficacious in removing those constitutions, which have been broken down by injudicious treatment, or juvenile indiscretions. In general terms, it is recommended to all those diseases which arise from morbidities in the blood, vitiation of the humors, of what ever name or kind.
Some of the above complaints may require some trifling auxiliary applications, which the circumstances of the case will dictate, but for a general remedy, *Panacea* is the cause, *The Indian's Panacea* will generally be found sufficient.

TO THE PUBLIC.
How true it is, that modern Physicians—in their ambition to excel in their profession, to explore the vast fields of science by the aid of chemistry, and seek out new remedial agents, in order to arrive at perfection in the practice by means of art alone—entirely overlook and neglect, as beneath their notice, the rich and boundless stores of medicine, which the Almighty has caused to spring out of the earth every where. And how true it is, that while the American Physician looks to foreign countries for many of his most common and necessary articles, he is changing as they are, the Indian's Panacea, which is surrounded by its own country with an endless profusion.
The *simplicity, efficiency and safety* of vegetable remedies over mineral, may be estimated by contrasting the ancient practice with the modern, or by bringing it more immediately under our own observation, the Indian practice with that of the whites. Who, in America, has not known or heard of repeated instances wherein some decrepid, unpretending female Indian, by means of her simple remedies, alone, has effected the most rapid and astonishing cures, after the whole Materia Medica of the common practice, directed in the most skillful manner, has failed? And who has not been surprised at beholding the comparative ease and facility with which the Indian frees himself of any disease, and at the almost total absence of chronic disease among them. Who has ever heard of an Indian with a constitution broken and ruined by ill-treatment? And can a doubt exist, that this happy exemption of the savage from most of the ills which the Lord of the civilized world has inflicted, is owing to the pure and simple remedies which he employs. This astonishing difference in success, is a fair exhibition of the divine superiority of the simple and safe means of cure which God has created for the benefit of his children, over those which the pride and the art of man have invented.

From a long residence among a portion of the aboriginal inhabitants of this country, an intimate acquaintance with the methods of cures of some of their most successful practitioners, the proprietor of *The Indian's Panacea*, acquired a knowledge of some of their most powerful and valuable remedies. From these he selected such as were most efficacious and appropriate, and after various experiments to test their principles and strength, he has embodied them in the form here presented, as the most perfect and beneficial for the purpose for which it is recommended.
The proprietor offers this preparation to the public, with the consciousness that he is placing within its reach a remedy capable of relieving many of his afflicted fellow beings, who are suffering under various chronic and obstinate complaints to which it is applicable. To such it will prove of incalculable value, as the means, and in many cases the only means of relieving their sufferings, and restoring them once more to health and happiness. This is not offered as a common remedy, that may procure but a temporary relief, but one which is capable of saving life in many extreme cases, when all the usual remedies fail. As it has done repeatedly; and this is the reputation it has obtained wherever it has been introduced.

It is only about three years since this preparation was first presented to the public, but in that short space of time, some hundreds of persons might be found, who would exultantly declare that they believed that their lives were saved by it, and in most cases after they had tried many, perhaps all the common remedies in vain. Wherever it is known it is rapidly coming into use, and this affords the most substantial and convincing proof of its merits.

The value of the Panacea, is most conspicuous in those long standing and obstinate syphilitic and scrofulous affections which have defied all other remedies, and particularly in those cases where mercury has been extensively used, as to continue destroying pains in the bones, nodes, mercurial ulcers, derangement of the digestive organs, &c. These it completely removes, and in all cases it entirely eradicates the disease, and the effects of mercury, restores the constitution, and leaves the patient sound and well. In Rheumatism and in ulcerated sore throat, its happy effects are not less apparent, giving almost immediate relief.

Taken in proper doses, *The Indian's Panacea* operates as an alternative, and detergent, a diaphoretic, diuretic and laxative; an antispasmodic and tonic, and in proper cases, as a stomachic and an emmenagogue. Generally expressed, it increases all secretions and excretions, gives tone to the stomach, and excites action in the glands in a particular manner. From these principles its operation may be understood.

This medicine has been found highly useful in many a dangerous disease not here specified, and it has been used with wonderful success, as a Syring and Full, purger, by those who are subject to complaints of the chest, and whose constitutions require new vigor. Such persons will do well to use *two or three bottles* in small doses. Whenever a *diarrhoea* is considered necessary, the Panacea, taken in a small dose, will answer all its purposes, in much less time, at less expense, and in a far more agreeable manner, than the common diet drink.

The following certificates, out of hundreds similar which might be procured, are given to show the effect of *The Indian's Panacea*, in the various complaints therein mentioned, and also to exhibit in the most satisfactory manner its superiority over the syrups in common use.

CASES OF RHEUMATISM.
CHARLESTON, Nov. 15, 1831.
During the last winter and spring, I was afflicted with a very severe and distressing Rheumatism, occasioned by exposure in bad weather. I now take great pleasure in stating, that six bottles of *The Indian's Panacea*, restored me to perfect health, and I confidently recommend it to all similarly afflicted.
JOHN FERGUSON, King-st.

CHARLESTON, March 27, 1832.
I was seized about three years since with a distressing Rheumatism, caused by taking a severe cold while under the influence of mercury, and which had existed in me for a business nearly six years. During this period I have been a patient in the Marine Hospital in this City, upwards of twenty months, and the same length of time in the Baltimore Hospital, and tried almost every remedy, with little benefit. On the 10th of February, 1832, at that time scarcely able to move about upon crutches, I commenced the use of *The Indian's*

Panacea. In one month I found myself entirely cured from the pain, and am now happy to state that I feel myself perfectly well.
WM. TUCKER, 13 Market-st.

CURE FOR SCROFULOUS ULCERS.
New York, Sept. 10, 1830.
This may certify, that in the fall of 1825, I was seized with a swelling in my neck and face, which afterwards ulcerated and became large ghastly ulcers in my neck. After trying several Physicians to no advantage, I went to Philadelphia, and placed myself under the care of Drs. Physic and Besch, who, after repeated salivation to no effect, I was pronounced totally incurable. Afterwards I took twenty bottles of *Swain's Panacea*, and eight bottles of *Potter's Catholicon*, with no material benefit. Despairing of life, which had now become a burden to me, I returned to my parents in New York in 1826, and gave myself up to a lingering death. Hearing of the great success of *The Indian's Panacea*, however, in cases similar to my own, I was persuaded to try it, as a last resort. To my great surprise, as well as satisfaction, I soon found myself rapidly recovering, and upon taking seven bottles, the ulcers healed and became perfectly well in the course of two months, and have remained so ever since. I have this statement and wish it published for the benefit of those who are suffering under similar scrofulous or syphilitic affections, that they may know what has cured one who has suffered every thing but death, and who considers his life saved by the above syrup.

WM. HINMAN.
The above Medicine may be had at
WILLIAM REYNOLDS
DRUG STORE, CAMDEN S. C.

DARLINGTON DISTRICT.
IN THE COURT OF COMMON PLEAS.
HIRAM H. REGE, vs. Wm. Y. FRIER.

WHEREAS, the plaintiff in the above action did, on the 13th day of April, A. D. 1835, file his declaration in the office of the Clerk of this Honorable Court, against said defendant, who is absent from, and without the limits of, this State, and has neither wife nor attorney known with him, and on whom a copy of the said declaration was made and served, and that the said defendant did appear and plead to the said declaration on or before the 25th day of July, in the year of our Lord one thousand eight hundred and thirty-five, otherwise final and absolute judgment will be awarded against him.

Sept 12. H. LEVY.

F. MENARD,
Professor of the Modern Languages, in tending to settle in this place, presents his respects to the citizens of Camden and its vicinity, and returns his sincere thanks to the former, for having hitherto favored him with their patronage, in the tuition of the **FRENCH LANGUAGE**, that has become universal.

He also proposes to teach the Spanish and Italian; the former, appreciated for its commercial utility in the intercourse with South America; the latter, a favorite with the Fair Sex, from the melody of its inflexions and musical perfection. The pupils will be taught theoretically and practically, so as to be enabled to translate, write and speak the several languages.

The Professor may be engaged for two quarters, according to the wishes of the Parents or Students.

He hopes to give general satisfaction, and to obtain a continuation of the public favor.
PRE-PAID QUARTER.

At Camden Academy, \$10
At his residence, \$12
Attending pupils at their residence, \$15.
Corner of Broad and D. Kalb-streets.
He also offers a few books in various Languages for sale, at moderate prices.
Feb 20:4:31

The Edgell Academy,
THE Public are respectfully informed that the duties of this institution are again resumed by Mr. W. Richardson. The course of studies will be suited to the present requirements of the South Carolina College.
Claramount, Feb 1:4:10.

\$25 REWARD.
The above reward will be paid for the delivery of CATHERINE or Kate, as she is sometimes called, to the jailer either of Kershaw or Sumter District. Catherine runaway about a month or 6 weeks ago. She is a bright mulatto, stout and good looking, generally well dressed. She is supposed to be lurking some where in the neighborhood between the Bradford Springs and Carter's Crossing, or Mechanicville and perhaps in Camden.
WM. MAYRANT.
Stateburg, Nov. 13. 1346.
LAW BLANKS
